

Better care for every person — all skin, every wound, every time. It's at the heart of what you do every day, and we're on a mission to help. As a leader in advanced wound care and skin integrity, we combine our science with your relentless commitment to care. Together, we can elevate the critical role skin plays in the well-being of every person, and move care forward to help patients heal from treatment and get back to their lives.

Protect and manage skin

3M™ Cavilon™ Advanced Skin Protectant

Cavilon Advanced Skin Protectant utilizes revolutionary polymer-cyanoacrylate technology to create a highly durable, ultra-thin barrier that protects damaged or intact skin from caustic, corrosive body fluids such as liquid stool and gastric fluid.

Item no.	Size	Each/case	HCPCS code	2024 Medicare allowables

Provide collagen

3M™ Promogran™ Collagen Matrix with ORC and 3M™ Promogran Prisma™ Collagen Matrix with ORC and Silver

Promogran Matrix is comprised of 45% oxidized regenerated cellulose (ORC) and 55% collagen in a sterile, freeze dried composite.

Promogran Prisma Matrix is comprised of 44% oxidized regenerated cellulose (ORC), 55% collagen and 1% silver-ORC in a sterile, freeze dried composite.

Promogran Prisma Matrix contains a compound of silver and ORC and has nominally twice the amount of Collagen/ORC material as the same size of Promogran Matrix.

Item no.	Description	Size	Each/box	HCPCS code	2024 Medicare allowables

Manage exudate (cont.)

3M™ Nu-Gel™ Hydrogel with Alginate

Put hydration where your patient needs it with Nu-Gel Hydrogel. It creates a moist wound healing environment, which assists with natural autolytic debridement while the alginate component enhances its absorptive capabilities. The gel can be used to soften and hydrate eschar by facilitating rehydration of the wound.

Item no.	Size	Each/case	HCPCS code	2024 Medicare allowables

3M™ Tegaderm™ High Performance Foam Adhesive Dressing

Tegaderm High Performance Foam Adhesive Dressings are designed to meet the challenges of low- to high-exuding wounds. Unique multi-layer design provides high absorbency with high breathability to reduce the risk of skin maceration. Film backing prevents strike-through and protects again external bacteria and viruses.*

**In vitro* testing shows that the transparent film provides a viral barrier from viruses 27 nm in diameter or larger while the dressing remains intact without leakage.

**The mini wrap dressing is constructed of a conformable, absorbent, polyurethane foam pad with a highly breathable, non-waterproof, film backing reinforced with soft cloth tape.

Provide compression

3M™ Coban™ 2 and 3M™ Coban™ 2 Lite Two-Layer Compression Systems

3M™ Coban™ 2 Two-Layer Compression Systems are easy to use and provide high compression (35–40 mmHg) for patients with ABPI greater than or equal to 0.8, and reduced compression (25–30 mmHg) for patients with ABPI greater than or equal to 0.5. Each system is supplied as a kit that includes two rolls: a Comfort Layer roll and a Compression Layer roll. The thin, lightweight and breathable sleeve allows patients to wear their own footwear. 3M™ Coban™ 2 Compression Systems are comfortable to wear and provide sustained therapeutic compression for up to seven days.

Miscellaneous products

3M™ Tegaderm™ +Pad Dressing with Non-Adherent Pad

Tegaderm +Pad Dressing with Non-Adherent Pad is an all-in-one dressing that provides a sterile, waterproof, viral* and bacterial barrier. These dressings consist of a non-adherent absorbent pad bonded to a thin film transparent dressing.

**In vitro* testing shows that the transparent film provides a viral barrier from viruses 27nm in diameter or larger while the dressing remains intact without leakage.

Item no.	Dressing pad size	Overall dressing size	Each/case	HCPCS code	2024 Medicare allowables
