3M<sup>™</sup> Every Load Monitoring Program

**Every patient  
deserves the  
same standard  
of care.**

3M™ Every Load  
Monitoring Program

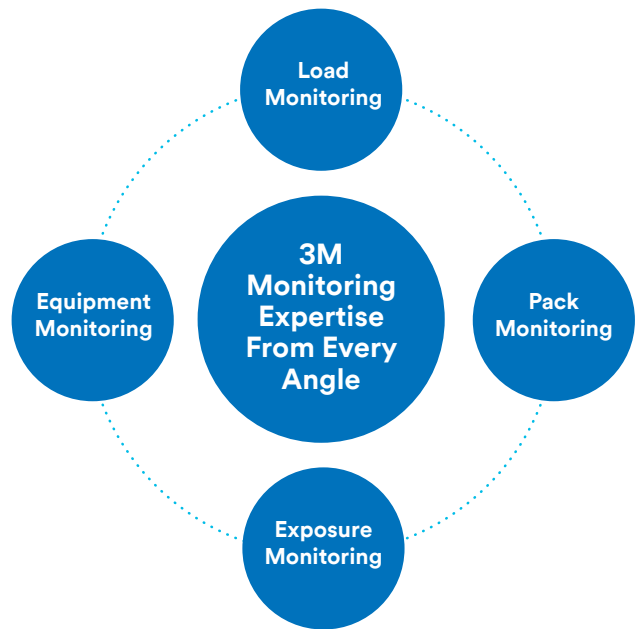

# When the pressure is on, you're at your best.

Staff turnover. Workflow pressure. Human error. Your job is tough. Your job is important. And we're here to ensure your voice remains heard and understood. We've been helping Central Sterilization departments and healthcare facilities overcome the challenges they face for over 30+ years with a holistic approach to sterilization assurance — and we're just getting started.

# A unified force to help reduce patient risks.

The 3M™ Every Load Monitoring Program aims to help you take your monitoring practice to the next level. By implementing processes that support Every Load Monitoring, you push an elevated patient-first mentality that every healthcare facility requires.

**Every Load Monitoring** remains the only method to measure lethality of every cycle with the highest level of sterility assurance.

When a positive biological indicator result occurs indicating a sterilization failure, AAMI ST79\* recommends the recall of every load processed since the last negative BI.

*\*ANSI/AAMI ST79:2017, Sections 13.5.3.1, 13.7.5.1*

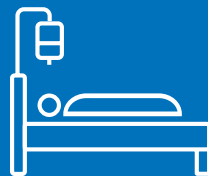

## The risks are real.

Every day,  
**1 in 31**  
hospital patients  
has an HAI.<sup>1</sup>

A single SSI  
can cost up to  
**\$60,000**  
per incident.<sup>2</sup>

About  
**72,000**  
patients with HAIs die during  
their hospitalization every year.<sup>1</sup>

**Commit to Every Load Monitoring today.**

<sup>1</sup> Centers for Disease Control and Prevention. <https://www.cdc.gov/hai/data/portal/>. Accessed on 9/24/19.

# Simplify. Standardize. Streamline.

**Trust.** It's an unspoken promise you share with every patient to do everything you can to proactively defend them against the risk of a surgical site infection. Beyond the potential time and cost impacts of an instrument recall, the risk of inadequate monitoring practices could mean losing that trust. **But you have the power to keep it.**

When healthcare facilities commit to standardized Every Load Monitoring, it's about more than just doing the right thing or exceeding industry standards. It means simplicity and consistency in helping ensure that every surgical instrument and device is sterilized and monitored before use.

You are the silent guardian of your facility. The first line of defense. What you do every day can have a dramatic effect on future outcomes that happen at your facility. We're your biggest fans and we're dedicated to your success.

**Joining the 3M™ Every Load Monitoring Program empowers you to make a critical difference for every load, every procedure and every patient.**

# Ready to begin? Let's get started.

Start with our Gold level and step up to the next level when you're ready.

**Gold**  
Move to Every Load Monitoring for **Steam or VH2O2** using 3M™ Attest™ Biological Indicator (BI) System

Choose one: 41482V/41482VF or 1492V\* 1295\*

**Platinum**  
Move to Every Load Monitoring for **Steam and VH2O2** using 3M™ Attest™ Biological Indicator (BI) System

Choose one: 41482V/41482VF or 1492V\* 1295\*

## Gold and Platinum Program Details

Both Gold and Platinum programs offer, with a 2-year commitment,\* the following, at no charge:

- Plaque
- Certificate
- 3M™ Attest™ Mini Auto-reader 490M\*

## Additional sterilization monitoring products to help you simplify, standardize and streamline your facility.

If your facility is participating in either Gold or Platinum programs, complete your program with a commitment to purchase the following additional Steam or VH2O2 monitoring products. With a 2-year commitment,\* you will receive a kit of the additional commitment products to get you started.

### STEAM Steam Starter Kit

### VH2O2 VH2O2 Starter Kit

**To learn how you can implement these sterilization programs, contact your 3M Account Manager today at 1-800-228-3957 or visit [go.3M.com/ELM](http://go.3M.com/ELM).**

\*Each requires you to agree to separate two-year commitments to purchase sterilization monitoring products, which may run concurrently depending on date of the following product shipment:

- 3M™ Attest™ Mini Auto-reader 490M
- Starter kit (Steam or VH2O2)

The commitment will end two years thereafter unless otherwise terminated by your facility upon ninety (90) days written notice to 3M. Early termination will require your facility to return the 3M™ Attest™ Mini Auto-reader 490M to 3M. This offer is available to health care provider facilities with sterilization departments within the 50 states that comprise the United States of America and Washington D.C. The 3M Attest Mini Auto-reader 490M has a total value of \$610. The starter kit products have a total value of \$1,068.53 (Steam) and \$2,424.00 (VH2O2).

The value that you are receiving from 3M is a discount or other reduction in price under federal law at 42 U.S.C. §1320a-7b(b)(3)(A) and regulations issued there under. Accordingly, you are responsible for reporting/ or providing information on all discounts, rebates, or reductions in price to reimbursement agencies (including Medicare and Medicaid) and other entities in accordance with all applicable laws and regulations, including the provisions of the discount exception at 42 U.S.C. §1320a-7b(b)(3)(A) and the discount safe harbor regulation at 42 C.F.R. §1001.952(h). Further, you shall promptly disclose and appropriately reflect any discount, rebate or other reduction in price as may be required under Medicare or any other federal or state health program, consistent with the requirements of the Medicare/Medicaid Antikickback Statute and regulations.
