

# The next generation of clarification solutions has arrived

## 3M™ Harvest RC Chromatographic Clarifier platform

Now you can rely on one consistent, scalable clarification platform for all development phases and process volumes.

The 3M™ Harvest RC Chromatographic Clarifier platform is a next-generation clarification platform that includes 3M™ Harvest RC Chromatographic Clarifier for direct clarification and 3M™ Harvest RC Centrate Chromatographic Clarifier, for centrate clarification. This modern clarification platform of single-use devices offers linear scalability from lab to manufacturing scales, improves process efficiency by reducing soluble impurities and can be seamlessly integrated into facility infrastructures.

 **Discovery & preclinical**

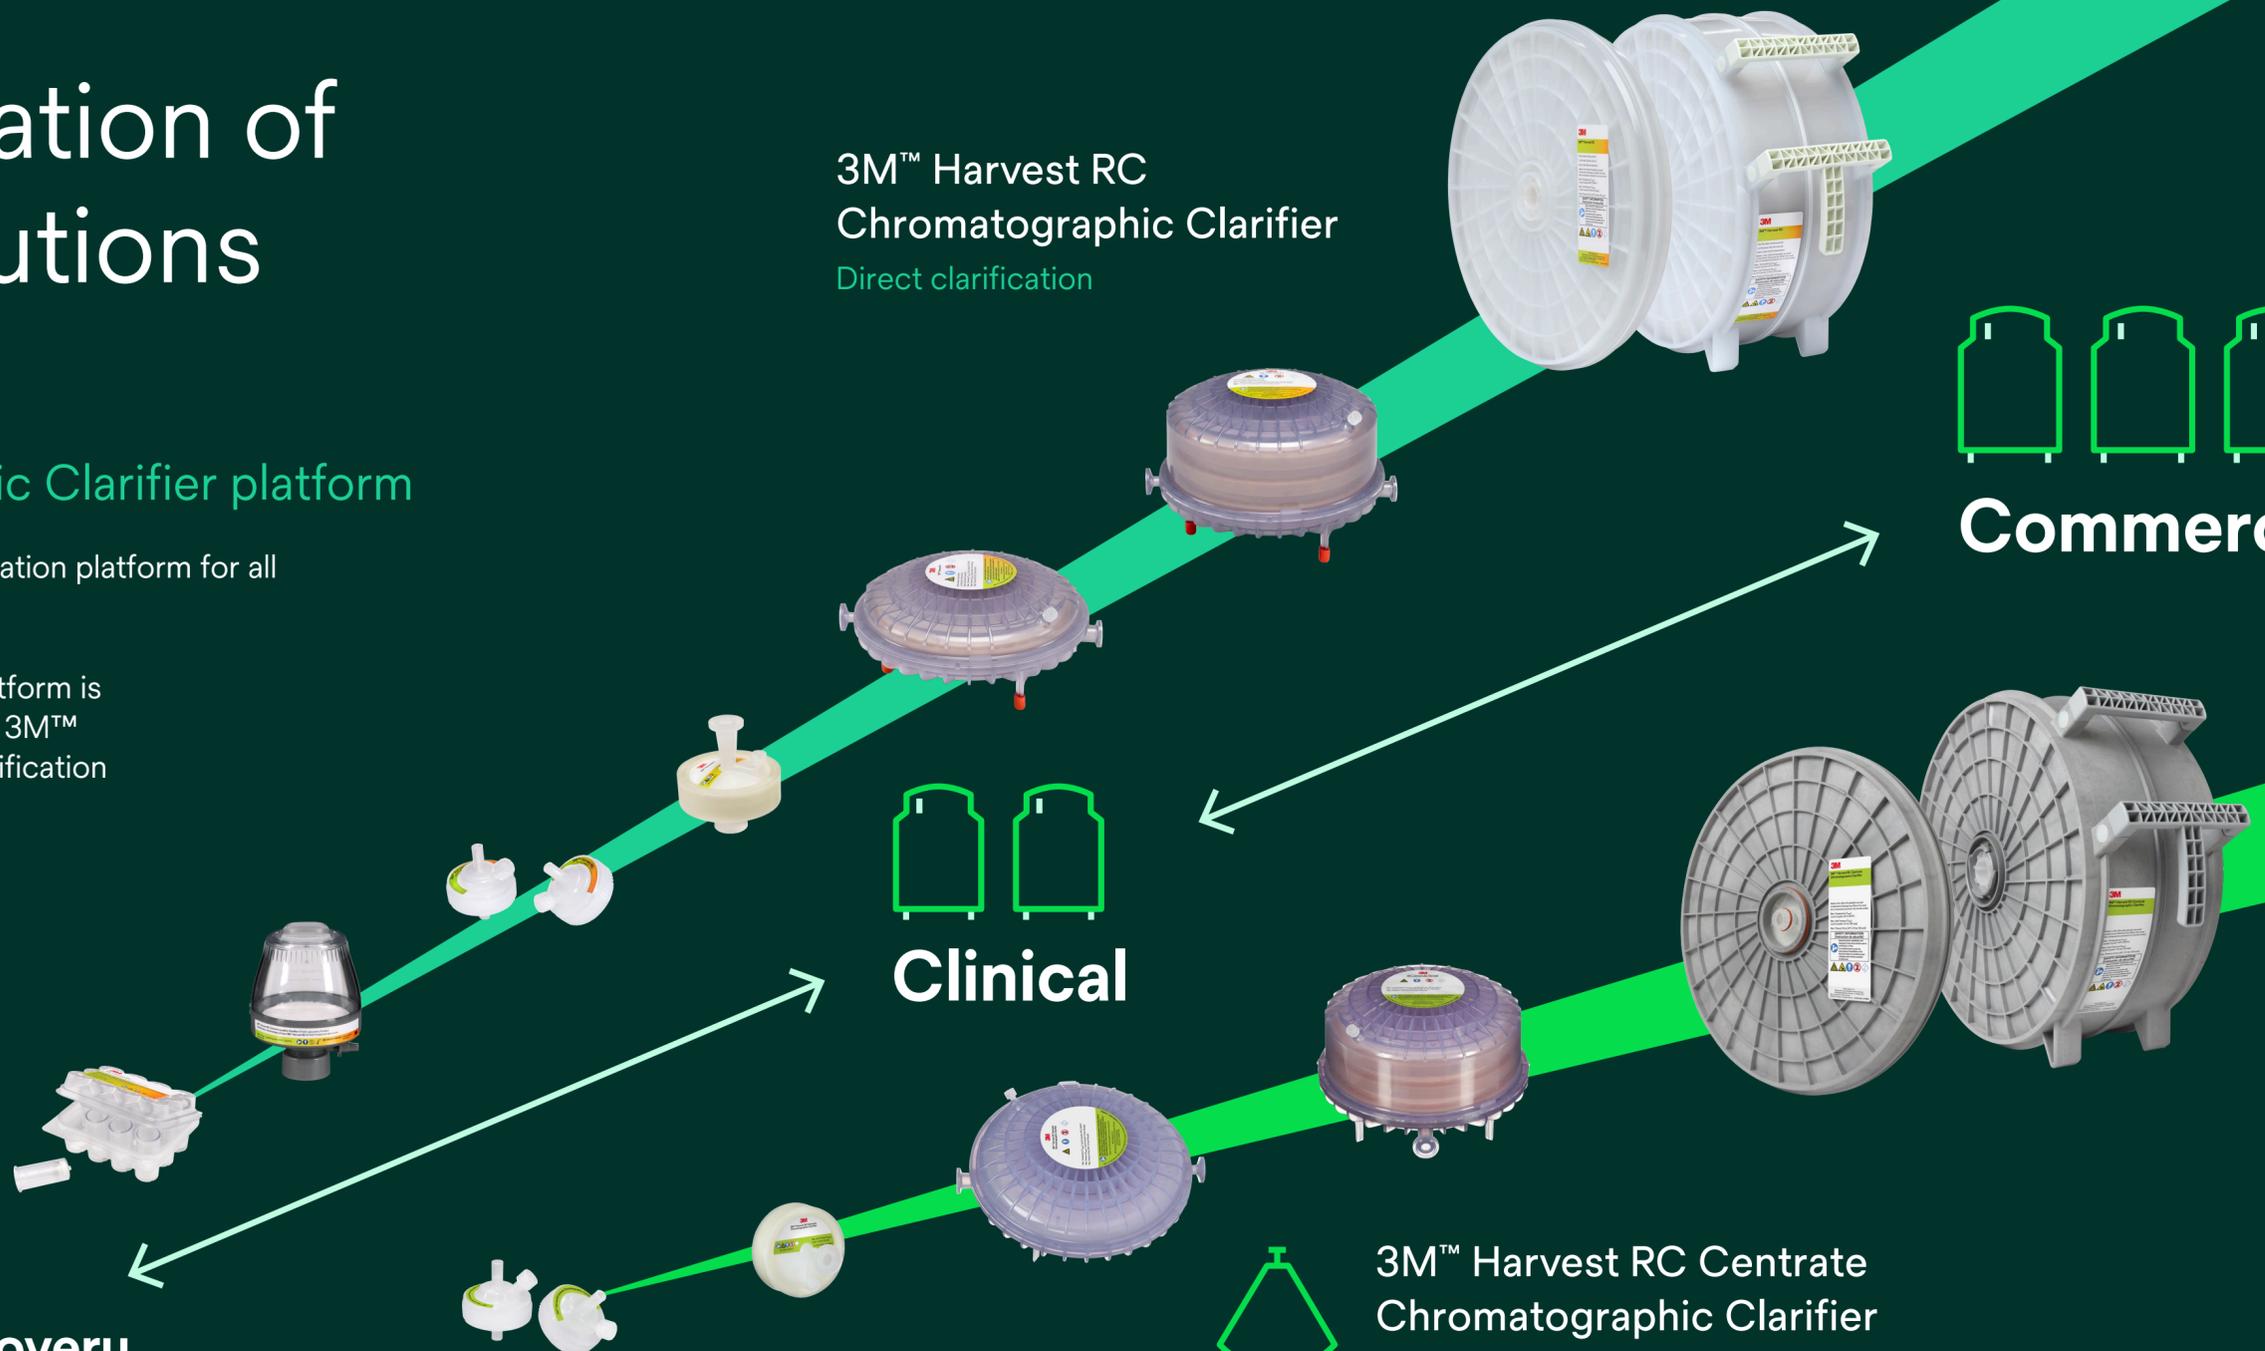

**Clinical**

**Commercial**

3M™ Harvest RC Chromatographic Clarifier  
Direct clarification

3M™ Harvest RC Centrate Chromatographic Clarifier  
Centrate clarification
